VICTORIA:

**ALEX. ROSE. BOOK AND JOB PRINTER, FORT STREET.
1878.**

In presenting to the Public the following List of Seeds, &c. we may remark that the name of our firm has been changed for various reasons to P. T. JOHNSTON & Co., but the business is carried on by the same parties, under the same management and in the same business premises as the old firm of MITCHELL & JOHNSTON, and in future as in the past we hope to merit the confidence of our Patrons by sending out only Seeds true to name and of the best growing quality.

The prices we quote for seed are the lowest at which we can supply good, reliable seeds, leaving ourselves a fair profit.

By getting out old, rusty seeds from England round Cape Horn, and selling them regardless whether they grew or not, we could doubtless sell at a fraction of the price we charge, but we mistake the growers of the Province very much if they would not rather pay a little more and be sure what they obtained was the genuine article, and would be sure to grow.

Any Seeds or Horticultural Requisites not on the following list, can always be procured by giving timely notice.

For prices and description of Nursery Stock, see our Priced Catalogue issued last October, which will be forwarded post free on application.
